There is a transcription of this in Guitar World Acoustic.

```
Emy
                C(add9)
                                                        G5
Baby, set me free from this misery. I can't take it no more.
                 C(add9)
Since you went away nothing's been the same;
Don't know what I'm living for.
      C(add9) G5
                      D
Here I am---- so alone
            C(add9)
                                        Dsus2
And there's nothing in this world I can do.
CHORUS:
             C(add9)
                       G5 D Em
Until you're back here, baby,
C(add9)
        G5
                   D
Miss you, want you, need you so.
             C(add9)
                        G5
Until you're back here, baby, yeah,
          C(add9)
                     G5
                                       Em
There's a feeling inside I want you to know:
C(add9)
           G5
You are the one and I can't let you go.
So, I told you lies, even made you cry. Baby, I was so wrong.
Girl, I promise you now, my love is true;
This is where my heart belongs.
'Cause here I am so alone and there's nothing in this world I can do.
CHORUS:
BRIDGE:
                      Em
And I wonder, are you thinking of me? 'Cause I'm thinking of you.
                     Em
And I wonder are you ever coming back in my life?
              C(add9) G5
                                D Em
'Cause here I am----, so alone,
            C(add9)
                                        Dsus2
Em
And there's nothing in this world I can do.
CHORUS [repeat and out]
```
