Brown-Eyed Girl

Words and music by Van Morrison, from Blowin' Your Mind!

"Brown-Eyed Girl" is one of Van Morrison's most popular songs and was such a big hit that it single-handedly established him as a soloist after his 1966 departure from the R&B-inspired rock group Them. Morrison's vocals and lyric style combine with producer Bert Berns' calypso arrangement to create the ultimate in carefree coming-of-

age tunes. Try the two-measure strumming pattern below during the verses, and use any variation you're comfortable with for the chorus. If you've got a cutaway guitar, try the riff below over a G-C-G-D progression for the intro.
