Mules
(to the tune of "Auld Lang Syne")

```
    C                   F      G7
On mules we find two legs behind,
    C                 F
And find two legs before.
        C       Am      Dm    G7
When you stand behind the two behind
    Am        G7      C
You find what they be for!
```
